Category:Fomor

General Notes

- See Fomor Hate.
- Shadows refer to the Elvaan types in chainmail. Typically found in The Eldieme Necropolis'.
  - Shadows are from the base game predate Fomors which were released with CoP.
  - Despite predating Fomors and having their own unique resistances. Shadows operate a subspecies of Fomor.
  - While Shadows exclusively use Dimensional Death. Some shadow NMs are capable of using Fomor TP moves.
  - The ambiguity between Shadow and Fomor can be further seen in the Adoulin quest Lerene's Lament. Where it refers to the Fomors as Shadows.
