General Notes

- Lore
  - These friendly beastmen once hailed from the glorious Kingdom of Kupalika. Their kingdom collapsed thousands of years ago, causing them to split off into separate nomadic tribes.
  - They have been a part of civilization for all of mankind's recorded history: creatures believed to be a Moogles appeared in ancient cave paintings of a Mithra hunting festival serving a feast, a clay figurine in the Altepa Desert, historical accounts of a Tarutaru hero's servant who delivered his master's keepsake sword to another continent on the same day (to his wife who lived in the city) and a San d'Orian court jester who could do acrobatics while floating in the air.
  - Moogles claim to hatch from eggs.
- Mysterious Moogle Magic is mysterious. Moogles have the ability to:
  - Shapeshift into decorations on request (see Player Event Support (https://secure.playonline.com/eventsupport/index.html?polg_loc=en))
  - Repair glitched items or standing in for Glitched NPCs.
  - Provide Moghancements based on their master's furniture.
